PROFESSIONAL SUMMARY

Full Stack Development Intern at CDS Solutions, building systems for public and private sector clients with TypeScript, Python, and Rust. Computer Science student at IESB, with a path from IT support to software development and personal projects in React Native, Next.js, and PostgreSQL.

PROFESSIONAL EXPERIENCE

Full Stack Development Intern - CDS Solutions

Sep 2026 - Present

- Develop systems for public sector clients, such as the Brazilian Navy, and for small and mid-sized private companies.
- Work across front-end and back-end with TypeScript, Python, and Rust.

IT Intern - CFN

Mar 2025 - Sep 2026

- Developed and maintained internal apps with Microsoft PowerApps.
- Built web interfaces with HTML and CSS.
- Provided technical support for internal systems.

IT Intern - IESB

Mar 2024 - Mar 2025

- Managed the availability of computer laboratories.
- Performed network diagnostics and supported academic systems.

PROJECTS

365prints Next.js, TypeScript, Python, Whisper

github.com/GSerejo/365prints

Search across @unipedia3d's "365 days of 3D printing" videos by what is said in each one: local Whisper transcription, TikTok and Instagram scraping, and PostHog analytics, deployed at 365prints.vercel.app.

Medication Reminder App React Native (Expo), TypeScript

github.com/GSerejo/App-remedios

Medication reminder for elderly people and children: an alarm sounds at each dose, the patient photographs the blister pack, and the caregiver gets the medication, date, and time on WhatsApp (demo video).

TabNews Clone Next.js, PostgreSQL, Docker, Jest

github.com/GSerejo/clone-tabnews

Ongoing Curso.dev project: Next.js API backed by PostgreSQL on Docker Compose, with Jest integration tests, deployed at gserejo.com.br.

EDUCATION

Bachelor's Degree in Computer Science - IESB

2023 - Dec 2027

7th semester | Evening classes

Full Stack Engineering Program - Curso.dev (Filipe Deschamps)

2026 - Present

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust, Java, SQL

Front-end and mobile: React, Next.js, React Native (Expo), Tailwind CSS, HTML5, CSS3

Back-end and data: Node.js, REST APIs, PostgreSQL, Power BI

Tools: Git, GitHub, Docker, Jest, Vercel, Microsoft PowerApps

COURSES AND LANGUAGES

Courses: Machine Learning - DIO (2024) · Power BI & SQL, 320h - DNC (2023) · JavaScript - Caelum (2021)

Languages: Portuguese (native) · English, intermediate (B1), in progress at Casa Thomas Jefferson
